The 2015 Ohio Traffic Crash Facts Book is an in-depth highway safety statistical profile and analysis compiled from data supplied by law enforcement agencies across the state. This annual report provides a comprehensive look at the driving behaviors, facts and circumstances of traffic crashes on Ohio's roads. It is aimed to help the Ohio Department of Public Safety, local law enforcement agencies and other public safety partners determine and allocate resources to improve highway safety in Ohio.

Some of the more alarming statistics remind us why traffic safety continues to deserve our attention. Last year, the state recorded 302,307 total traffic crashes and 1,110 deaths. In 2015, alcohol impaired drivers were involved in approximately 31 percent of all fatalities, and 513 motor vehicle occupants sustained fatal injuries in traffic crashes because they didn't wear their available seatbelt.

The collaborative effort between all public safety agencies has had a significant impact on the amount of persons being killed on our roadways; however, there is still work to be done. The Ohio Department of Public Safety will continue to focus our efforts on the problems impacting our citizens the most – whether that's impaired driving, safety belt usage or speed – because the lives of Ohioans are our top priority.

It is our hope that you will use these statistics to help educate, encourage and promote safe driving in our state.

Sincerely,

John Born, Director
Ohio Department of Public Safety

Mission Statement

"to save lives, reduce injuries and economic loss, to administer Ohio's motor vehicle laws and to preserve the safety and well being of all citizens with the most cost-effective and service-oriented methods available."
